

Fill, Freeze, Pour, Drink! The concept of the ice luge is very simple: an ice sculpture that you can drink from. Lugez is providing you this opportunity without having to pay \$500 for a custom sculpted one. Below are detailed instructions on how to prepare and use your Lugez luge.

If you have any questions do not hesitate to e-mail, phone, or chat with us. We love to hear from our customers! Nothing makes us happier then to know we helped you have a great time... so please take the time to tell us about your experience, or show us some pictures or videos.

## — FOLLOW DIRECTIONS FOR SUCCESS —

### FILLING

1. Pour 1 gallon or fill 2/3 of mold. **Do not fill to the top!** *TIP: Some believe distilled water will create a clearer ice. (<http://recipes.howstuffworks.com/question205.htm>)*
2. Freeze for 24 hours.
3. Fill to top with **Cold** water. (Warm water will cause cracking.)
4. Freeze for additional 24 hours.

### DE-MOULDING

1. Gently remove your Lugez from the freezer. Allow the mold to acclimate for approximately 10 – 15 minutes before cutting the seal. Ice is sensitive and cracks easily when leaving a freeze.
2. Use a utility knife and/or scissors to cut along the seam of the mold. Start at the butt and work toward the penis.
3. Gently peel the mold from the ice. Any imperfections or residue in the ice may be scrapped smooth or buffed with a wet towel. **DO NOT** run under a faucet. The faucet may cause cracking.
4. Straighten out the aluminum at the end of the mold and pull the aluminum wire using the handle.
5. Pull tubing out next. It may be necessary to pull at both ends to release it from the ice.
6. Place Lugez back into freezer, gently, if it is not being used immediately. Use a towel for padding.

*TIP: Plan ahead and have your Lugez prepared before your guests arrive.*

### USING

1. Choose a serving tray and place Lugez on the tray. Be creative. Lugez looks great with black linen underneath the Ice sculpture! Try to use dark colors at the base to better display the reflective qualities that ice has.
2. Turn on your LED light and slide it under your Lugez. Two different colored lights is another exciting way to display Lugez.
3. **MOST IMPORTANT** – Prepare your room for Lugez presentation. Turns your lights off, music up, etc. Present your Lugez to your guest in the most exciting was imaginable!
4. Your Penis Ice Luge will last for approximately 1 hour.
5. Use Cold Liquids. Warm or hot liquids will melt the Luge very quickly.

*Thank You for buying Lugez. Please tell us how much fun you have. We love to hear good stories. And send pictures or videos if you can. Lugez has a monthly contest with free prizes.*
